# Welcome

## Keelboat racing on White Bear Lake

# The Club

BBYRA is a sailing, racing and social club located in White Bear Lake, Minnesota.

The club conducts sailboat races, classroom instruction, on-the water training and various social events throughout the year.

For racing minded members, we are an active group of sailors who use up their extra energy competing for annual trophies through series' of racing events each summer.

**All keelboat owners are welcome to participate, particularly those who are beginners to racing. We encourage all to join in and learn from the more experienced sailors who are happy to pass on their advice.**

Most of the racing is of handicap format. We regularly have a variety of boats including Catalina Capri's, Starwind, Paceship, Precision, Cape Dory, Ideal, Aquarius and more. J-boats make occasional appearance, as well.

## Social Events

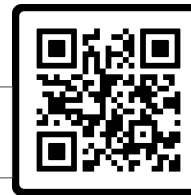

BBYRA is a fun social, networking club. We hold many social get-togethers throughout race season and post-season. Join in the fun!

**Visit our website** for all things

BBYRA. Registration applications can be downloaded. A race calendar is provided. Race scores and standings for each race series are constantly updated. Social event news can always be found on [www.bbyra.com](http://www.bbyra.com).

SCAN ME

## Sailing

Sailing takes place Tuesday evenings from 6:00pm and Saturdays noon - 3PM during long summer days. As many as 12-15 boats take part.

The main sailing season runs from last week of May to end of August. In September, there are two bonus series of races: Tuesday evening Frozen Fingers series; Saturday afternoon Iceberg series.

We hold an end-of-season annual awards banquet first week of November, or so.

## Training & Special Events

Our program of events regularly includes training classes in Spring prior to start of season. These usually include two evening get-togethers where we discuss boating safety and a session on sailing tactics & strategies.

We start and end each race season with 3-race regattas completed over two days.
